AJLON TECHNOLOGIES

How it works:

At first fix the MotorCon GSM motor controller to the starter unit of three After fixing the device, switch on the device and register the

mobile number to the GSM module. Two ways are

- By using mobile app
- By using SMS
- By making a call

By using mobile app

Open the app in your android

mobile Then press click here to enter

Click Here to Enter

AJLON TECHNOLOGIES

It will move second screen, there press the **“click here to register mobile”**

Then it will move to third screen ,there you have to enter the GSM module SIM mobile number

Finally enter the user mobile number and also give index number.

Up to 10 user number we can able to register, first number is the master number

After entering each mobile number, press the option **register**

At last press back button in your phone, it will return back to second page,there you have to press **SAVE & FINISH**

- ❖ After this process, switch off the unit for few minutes.
- ❖ Then switch on the unit, master number will receive the message system ready.
 - Then by using app you can control the motor, press the **OFF** option to **switch on** the motor
 - And also by pressing the **ON** option you can **switch off** the motor.
